The Whigs of the United States, in Convention assembled, firmly adhering to the great conservatrolled and governed, and now, as ever, relying upon the intelligence of the American people, with an abiding confidence in their capacity for selfgovernment and their continued devotion to the constitution and the Union, do proclaim the following as the political sentiments and determinations for the establishment and maintenance of which their national organization as a party is

1. The government of the United States is of a limited character, and it is confined to the ex-croise of powers expressly granted by the constitution, and such as may be necessary and proper for carrying the granted powers into full execu-tion; and that all powers not thus granted or necessarily implied are expressly reserved to the

States, respectively, and to the people.

2. The State governments should be held secure in their reserved rights, and the general government sustained in its constitutional powers, and the Union should be revered and watched over as "the palladium of our liberties."

3. That, while struggling freedom everywhere enlists the warmest sympathy of the Whig party, we still adhere to the doctrines of the Father of his Country, as announced in his Farewell Address, of keeping ourselves free from all entangling alliances with foreign countries, and of never quitting our own to stand upon foreign ground. That our mission as a republic is not to propagate our opinions, or impose on other couns our form of government by artifice or force, but to teach by example, and show, by our success, moderation, and justice, the blessings of self-government and the advantages of free in-

4. That where the people make and control the government, they should obey its constitution, laws, and treaties, as they would retain their selfrespect and the respect which they claim and will enforce from foreign powers.

5. Government should be conducted upon principles of the strictest economy, and revenue sufficient for the expenses thereof, in time of peace, ought to be mainly derived from a duty on imports, and not from direct taxes; and in levying such duties, sound policy requires a just discrimi nation, and protection from fraud by specific du-ties when practicable, whereby suitable encouragement may be assured to American industry, equally to all classes and to all portions of the country.

6. The constitution vests in Congress the power to open and repair harbors, and remove obstructions from navigable rivers; and it is expedient that Congress should exercise that power, when-ever such improvements are necessary for the common defence, or for the protection and facility of commerce with foreign nations or among the States: such improvements being, in every in-

stance, national and general in their character.
7. The federal and State governments are parts of one system, alike necessary for the common prosperity, peace, and security, and ought to be regarded alike with a cordial, habitual, and immovable attachment. Respect for the authority of each, and acquiescence in the constitu-tional measures of each, are duties required by the plainest considerations of national, of State, of individual welfare.

8. The series of acts of the 31st Congress commonly known as the Compromise or Adjustment (the act for the recovery of fugitives from labor included) are received and acquiesced in by the Whigs of the United States as a final settlement, principle and substance, of the subjects to which they relate; and, so far as these acts are concerned, we will maintain them, and insist on their strict enforcement, until time and experience shall demonstrate the necessity of further legislation, to guard against the evasion of the laws on the one hand, and the abuse of their powers on the other-not impairing their present efficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made; and we will main-tain this settlement as essential to the nationality of the Whig party and the integrity of the Union.

MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

Recently Patented in this Country and Europe. Recently Patented in this Country and Europe. To COCHRAN'S PLANOSPHERICAL QUARTE CRUSHING AND PULVERIZING MAGGINES are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested. These machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and result, are justly antitled to the consideration of all parties engaged in grinding, crushing, and Pulverizing Quartz, Iron Ore, Zinc, Copper, and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the conomy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the Gold may be easily separated, and subjected to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be re-

subjected to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being pulverized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the Druggist to those of the most extensive operations in California and Australia.

These machines are from two to twelve feet in diameter.

and Australia.

These machines are from two to twelve feet in diameter, with balls or spheres from three inches to five feet in diameter, each machine weighing from 250 pounds to 20 tons each, and are sold, with the right to use them, at from \$100 each, and are soid, with the right to use the control of \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a

any desired amount of power may be used, from the common or horse upward.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for cruzking, grinding, or pulverizing, heretofore offered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messes. Burr, Waterman & Co., first street south of Peck Slip Forry, every day, from 7 to 9 a. m., and from 4 to 6 p. m. For further particulars, apply to Signature of the street, New York.

KRAUSER'S PATENT CLOVER-SEED HAR-BEFORE THE PUBLIC FOR THE FIRST TIME

Its prince are now on exhibition some of the largest Daguerrestypes in the world, taken at this cetablishment, with a
large collection of others, free to the public at all hours of
the day.

Awarded the first medal at the late Fair of the Maryland
Institute in 1850 and 1851, and a premium at the Great Exhibition at Castle Garden.

GALLERIES.—No. 347, Broadway, New York; No. 25 Baltimore street, Baltimore; Pennsylvania avenue, Washington,
D. C.; No. 77 Main street, Richmond, Va.; Lynchburg, Va.;
Norfolk, Va.; and Petersburg, Va.
aug 4—

TO HOUSEKEEPERS, LODGERS, &c.

Is BEFORE THE PUBLIC FOR THE FIRST TIME

ITS utility is beyond comparison with any other farming
Implement now in use. It takes the seed from the fieldleaving the straw or grass all standing. It weighs two hundea and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box. which will cross a twentyacre field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that cvery farmer will
have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

We, the undersigned, do certify that we have seen Mr.

Krauser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given one-half for gathering and threshing.

JAMES D. TINERMAN,

WILLIAN P. GARWOOD,

WH. C. NICHOLSON,

JAMES B. COOK,

JAMES GOLLINS,

JAMES BRYSON,

CHARLES LEWIS.

Long-a-Coming, October 7, 1861.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two-thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.
NEHEMIAH NICHOLSON.

The following points out the profitable nature of the KRAUSER'S PATENT CLOVER-SEED HARVESTER. MARCSEWS PATENT CHOVER-SEED HARVESTER.—
We have conversed with a number of Farmers, and they are
of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jersey. Admiting there are but 1,000, it is said that each acre will yield
from 1½ to 3 bushels. Reducing it to a certainty of yielding
out 1 bushel per acre, what will it cost to gather and thresh
1,000 acres.

Cost of harvesting, &c., 1,000 acres......

usly with the above cal

Culation.

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realized from the sale of rights in the different States of the Union not yet disposed of. By calling at this office, it can be demonstrated existinctivity that men of moderate capital could not choose a better or more money-paying business.

Those who wish to see a model of this celebrated farming trackement, and the satisfactory manner in which it operates, implement, and the satisfactory manner in which it operates can do so by calling at E. WHEELER'S.

Opposite Browns Hotel.
N. B.—The subscriber has purchased the right for Mont omery county, Nacyland. june 11—tf [Intel.News&Rock.Jour.]

Hampton's Vegetable Tincture! COME, LET US REASON TOGETHER."

Language and Company of A. According to the T.

ORAL TESTIMONY. ORAL TESTIMONY.

THOUSANDS feel it a duty to talk to their afflicted friends of the benefit derived from HAMPTON'S VEGETABLE TINCTURE. From day to day we have given the certificates of cures performed on our best-known citizens, and still we have a perfect avalanche of letters pouring in upon us—all, all giving a weight of testimony that must convince the most skeptical. All are inviced to call and read for themselves. The letter bolow is from one of the first mercantile firms. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial:

PORT HOYAL, Va., July 27, 1852.

PORT ROYAL, Va., July 27, 1852. Mesre. Mortimer de Monobray: Gents: We have again to send an erder for more of your truly wonderful Hampton's Vegotable Tincture. Since it was first tried it has sold without an effort, and we have not seen the first person who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent palpitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured us he would rived, and that he should never come to remember us with gratifude for calling his attention to remember us with gratitude for calling his attention to so valuable a medicine
Fours, truly, GRAY & PENDLETON.

The Whole World, Attention! - Hear him, ye sick, and do likewise!!

and do likewise!!

Baltimore, Feb. 9, 1852.

Messre. Mortimer & Mowbray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fifteen years, I have suffered very much from Acute Rheumatism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health-to the use of the Tincture, and a kind Providence.

You are, my friends, at liborty to use this as you may think proper; and believe me; yours, very respectfully, N. B.—I can be seen at any time at the Meyor's office.

N. B.—I can be seen at any time at the Mayor's office.
G. D.

THE ALMOST MIRACULOUS CURES made by Hamp on's Vegetable Tincture on our most respectable citi-sens—men well known and tried—we challenge the world to show anything on record in medicine to equal it. Many hundreds who have felt its healing powers bear the same testiony.

Messrs. Mortimer & Mowbray: Gents: Last September I was attacked with crysipelas, from which a dreadful ulcer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was billous pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINCTURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had takon half the contents of one bottle I felt much improved: and now, having taken but two bottes, my cough and pains have entirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine.

Yours,

WESLEY ROCK. Schroeder, near Saratoga street.

Truth stranger than Fiction! - None need despair !-A Ludy's Testimony after thirty-eight years' of suffering!

of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

Normalanton Co., April 13, 1882.

Messrs. Tyler & Adair: I have been afflicted with Rheumatism, at times, from my twelfth year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not reat, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any relief; I was at last advised to try HAMPJON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the afflicted, believing it unequalled.

Yours, ELIZABETH BAGWELL. REV. VERNON ESKRIDGE, U. S. N REV. VERNON ESKRIDGE, U. S. N.

PORTEMOUTH, (Vs..) Aug. 18, 1851.

Mr. J. E. Boush—Dear Sir: Whi.e 1 am in general opposed to Petent Medicines, candor compels me to state that 1 have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepaka, loss of appetite, dizzinces, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours, VERNON ESKRIDGE, Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild & than PION'S VEGETABLE TINCTURE, by its mind ac-tion on the Stomach, Liver, and the Kidneys, will cure Dys-pepria, Cough, Asthma, Bronchial and Lung Affections; Peins in the Back, Side, and Breast; Consumption, Scrofuls, Rheumatism, Gout, Neuralgia, Fistula, Piles, Bowel Com-plaints, Worms, Nervous Debility—with all diseases arising from impure blood, and is the greatest Female Medicine

from impure blood, and is the greatest Female Medicine ever known.

For Cholcra Morbus, Cholic, Diarrhoca, and all diseases incident to the bowels in the summer season, it has no equal.

We ask the afflicted to call on those having this wonderful article for sale and get pamphlets, gradis.

Sep 3—

THOS. A. SCOTT. NOTICE.

Protection from Lightning.

THE andersigned, being the duly appointed Agent of Sphatt's Electronean AND Electro-Metallungust Lightning.

The Sphatt's Electronean AND Electro-Metallungust Lightning of these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zine Protectors, and Electro-positive elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting joints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented,) forming a lock; the whole mounted with a solid platinum silver point, (patented,) twelve inclusions, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the, entire perfection of science up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but elight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being scurred by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON,

I do hereby certify that I have applied various powerful chemical re-agents to Spratt's Patent Points for Lightning-Rods, and that the results of these experiments convince mu-that they will resist the action of atmospheric causes, and

Protection from Lightning.

that they will resist the action of atmospheric causes, and thereby preserve the extremity sharp—a condition most essential to protection against lightning. The re-agents used in the above experiments were a solution of chloride of sodium, (common salt,) acotic acid, sulphuric acid, and hydrechloric acid. With the first, there was no action on the metal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have

no sensible effect.

JOHN LECONTE, Prof. of Nat. Phil. et Chem.

UNIVERSITY OF GA., October 8, 1850.

The Lightning Conductors of Mr. Spratt, effered to me, are well calculated to perform the office for which they are intended. Yours, truly.

Prof. ROBT. PETER.

LEXINGTON, KY., February 20, 1850.

intended. Yours, truly,

LEXINGTON, KY., February 20, 1860.

CHICAGO, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, chospness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

AUGUSTA, (GA.) NOVEMBER 1, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to resist for years the action of those atmospheric causes most likely to corrode them.

Prof. Phys. Sc., Bmory College, Ga., and Prof. Chem. and

ted, to resist for years the action of those atmospheric causes most likely to corrode them.

A. MEANS, Prof. Phys. Sc., Bmory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a danger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SLIMAN, Jr.
